# ¿Qué es el OSINT?

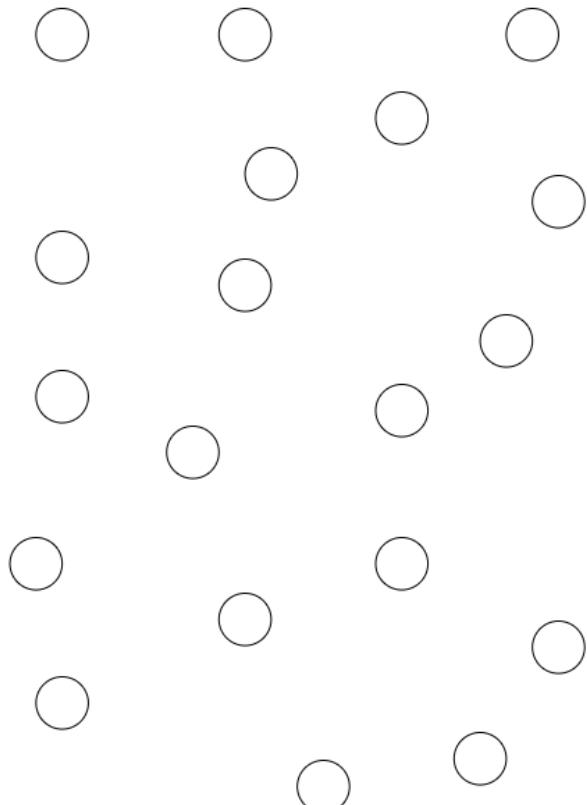

**“Open Source INTelligence is intelligence that is produced from publicly available information and is collected, exploited, and disseminated in a timely manner to an appropriate audience for the purpose of addressing a specific intelligence requirement.”**

*Departamento de Defensa de los Estados Unidos, documento: “National Defense Authorization Act For Fiscal Year 2006”*

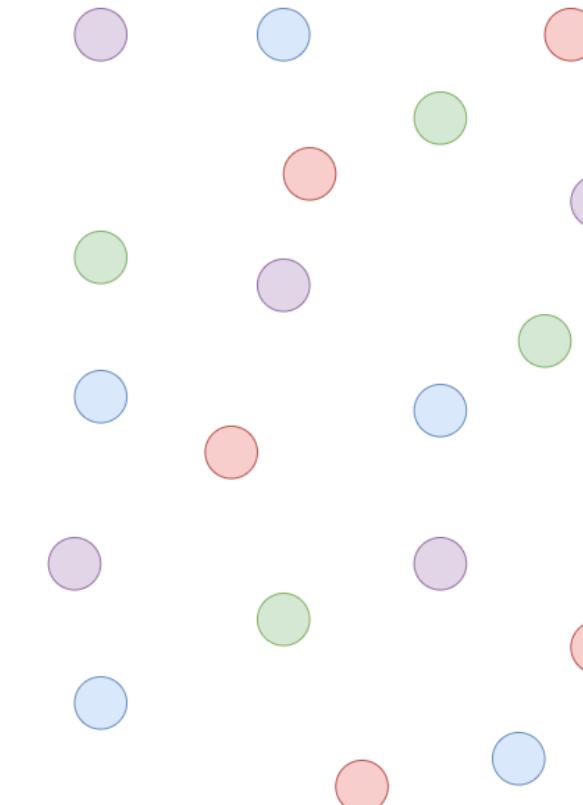

*El poder no está en la información, sino en la inteligencia que se puede derivar de ella.*

# Google Imágenes

A screenshot of a Google Images search results page. The search query "koutoubia" is entered in the search bar. The results show approximately 2 results found in 0.84 seconds. The first result is a thumbnail of the mosque from a different angle, with the caption "Tamaño de imagen: 960 × 1280" and a note that no other sizes were found. A related search suggestion "Mezquita Kutubía" is shown in a box on the right, along with a snippet from Wikipedia about the mosque.

Mezquita Kutubía

La mezquita Kutubía, Koutoubia, Kutubiya, Jamī' al-Kutubiyah o Kutubiyin es una mezquita, un edificio para el culto de la religión islámica, edificado en el siglo XII en la ciudad de Marrakech en Marruecos, representativo del arte almohade. Es la mezquita más grande de Marrakech. [Wikipedia](#)

# OSINT de Credenciales

The screenshot shows the homepage of the DeHashed website. The page has a dark blue header with the logo '# DEHASHED' and a search bar. A red border highlights the left sidebar and the main content area. The sidebar contains links for Search, Pricing, Data Wells, Blog, Support, FAQ, API, WHOIS, Monitoring, and My Account (with sub-links for Payments, Settings, and Sign Out). The main content area features a large banner with the text 'TAKE YOUR PERSONAL SECURITY TO THE NEXT LEVEL.' and an illustration of a briefcase with a lock being picked. Below the banner, the word 'DEHASHED' is prominently displayed in large white letters, followed by the number '14,453,524,109 COMPROMISED ASSETS' in red. A link to view search operators is provided. At the bottom, there is a search interface with 'FIELD(S)' dropdown, a search bar, and a 'SEARCH' button. A note about using fieldname: before queries is present, along with a terms and privacy policy link.

El idioma español es un buen indicador de que estás en España. Este idioma es bastante fácil de identificar con solo leerlo. Hay algunas diferencias clave entre el español y el portugués similar. El español tiene la palabra 'y' que significa 'y'. Esta letra aparece en todas partes como palabra en España. La palabra 'de' rara vez se usa en portugués, pero se encuentra abundantemente en España. Finalmente, la letra 'ñ', que es una 'n' con una línea ondulada encima, se encuentra en español pero no en portugués. El sistema de carreteras español se explica en detalle en la sección 'Sistemas de numeración de carreteras' más adelante en este artículo.

*España es uno de los puntos calientes para los olivos, y los 2/3 del sur del país están particularmente llenos de ellos.*

*Las casas españolas son generalmente blancas o de un tono de algún color cálido como rojo, naranja o amarillo.*

*Las barandillas en España tienen estos reflectores de color amarillo anaranjado que normalmente se encuentran cada pocos metros. Estos reflectores de color amarillo anaranjado no se encuentran en ningún otro lugar de Europa.*

*Los bolardos españoles son bastante únicos. Presentan el bolardo blanco y negro estándar europeo con un rectángulo angosto de color amarillo brillante encerrado en la sección negra del bolardo. Los únicos bolardos de apariencia similar en el universo GeoGuessr se encuentran en Colombia.*
